1. Determine depth of the Natural Drainage Diagnostic Zone (NDDZ).

Surface horizon:
> 10 in Dark

![Diagram showing NDDZ depth and color]

Surface horizon:
Gray, or Brownish, or < 10 in Dark

![Diagram showing NDDZ depth and color]

2. Determine Natural Drainage from color of the NDDZ.
(The lower depth of the NDDZ varies.)

NDDZ

Gray
Brownish
